	Mary Trumble and Ges Roulstone were present and wanted to talk about the proposals for the Church Hall and proposals to the Church. The Church Hall is now rather dilapidated. The replacement of the rendering many years ago caused a serious damp problem . A report was prepared as to the cost of repairs, which has been updated to account for recent inflation. The cost of repairs comes to about £80,000.00 The Parochial Church Council (PCC) cannot afford to get the repairs done. Additionally, Thurlby has two other public halls available so the Church Hall is under used and is now run at a loss. In order to develop St Firmin's Church as a Community Church, in line with other local Parishes, the PPC would like to install a toilet in the church and make alterations to adapt some of the space available. In order to fund this work, the PCC have decided to dispose of the Church Hall. We could demolish it but the cost of doing that was very high. The alternative is to convert the building into a 3 bedroomed bungalow. A Design Consultant was instructed, and a report was prepared. We want to transfer the facility of a community hall into the church. All of this could be done with the funds received from the sale of the hall. We hope to put in the planning application soon and wanted to appraise the Parish Council of these plans and hopefully get you onboard to support this work. Questions were asked and answered.

94.	To discuss the accounts for September and for the bank reconciliation to be signed as a correct record
94.1	The Clerk was able to circulate in advance various reports from Scribe for September 2023 which showed the items purchased, money received, and bank balances at the end of the month. The bank reconciliation was circulated, and this was approved and then signed by the Chair
95.	To discuss and approve the cost of cutting the hedge by the bus stop at Northorpe and to discuss the cutting back of the hedge behind the bus stop on the western side at Thurlby crossroads
95.1	<p>After the last meeting the Clerk contacted Martin Reece to see if he would have a word with his neighbour to see if there would be any problems, He replied stating that he would speak to her but she could be difficult. After speaking to her he said that as a softener could we agree to cut back the entire bush rather than just by the bus shelter. The Clerk contacted Chris Harris to see if he could do the work and at what price. After seeing the hedge, he said it would take two people to do the work and he felt the job was too big for him to do. Martin then contacted the man who cut his hedge to see if he could do the work. He likewise said that it was a 2-man job but he could do it but it would take 7 hours to do and the cost would be £224.00 in total. As some of the hedge was on Martins land he would agree to pay £32 towards the cost.</p> <p>After discussion it was agreed that the Parish Council could get themselves into a catch 22 situation as we might have to pay for the work every year and other residents might like the same treatment. The cost in the opinion of the Council was excessive and we should not agree to it. Cllr Thomas would have a word with another groundsman who might be prepared to do the work, but it was agreed that he would only cut the bush at the back of the bus shelter so that the shelter was not being damaged by it. The Clerk pointed out that if this was to be done they must be satisfied that we had the authority to cut back the bush and that we would not be accused of doing something illegally by the house owner. It was felt by the Council they were in their own rights to do the work but the Clerk should send her a letter advising her that we would be cutting back he bush behind he shelter.</p> <p>As for the bus shelter at Thurlby crossroads Cllr Bill had taken photographs showing that the bus was overhanging the footpath and also was likely to damage the shelter.. It was agreed that a card be posted to the owners advising them to cut the bush back but that if they do not then the matter would be reported to Highways.</p>
96.	To consider and complete the South Kesteven District Council Housing Strategy Consultation Survey and decide if and who will attend the workshop which take place on Monday 30th October at 2-4pm in Grantham at the Guildhall Ballroom.
96.1	<p>The survey had been circulated in advance given everyone the opportunity of seeing the questions. It was felt that the survey was a generic questionnaire for the entire South Kesteven District Council area and noy specific to Thurlby. We had our own protection on possible development in Thurlby by the Neighbourhood Plan.</p> <p>Notwithstanding this the survey was completed and submitted. It was agreed that the Clerk write to Stephen Holland advising him that the survey had been completed and to ask him if the thought it was time to update the Neighbourhood Plan. If he thought that it was would he be prepared to look into this matter and take steps to update it.</p>
97.	To receive an update on the crossing at Thurlby crossroads.

	97.1	There was nothing further to discuss as the matter had been dealt with in the report of Cllr Reid
98.	To consider the future of the Youth Hostel in Thurlby	
	98.1	There was nothing further to discuss as Cllr Reid said that he had no news but would chase this up
99.	To consider the data received from the reactive sign	
	99.1	<p>Cllr Bill had submitted a report of the data received from the reactive sign which is below: During September the radar unit was positioned at Northorpe recording traffic in a westbound direction.</p> <p>The data includes the partial closure of the High Street for drainage works and by coincidence last year's data also include closure of the High Street for resurfacing works. So, for a 'true' comparison the period 15th to 28th September 2023 is compared to 15th to 28th September 2022 i.e., non-closure.</p> <p>The daily, peak AM & PM counts are very similar except for the 5-day AM count which has reduced by 9%. The AM peak time is the same while the PM peak time has changed from 17.00 -18.00 to 15.00 -16.00hrs. Those travelling above the speed limit and their average speed are also very similar to last year. The maximum speed has increased slightly by 6mph to 60 mph but significantly recorded at 18.25hrs. as opposed to the early hours. The average speed is slightly down at 26.4mph.</p> <p>Compared to pre 2022 data the average daily count is slightly down while the other results are very similar.</p> <p>Further details can be found on the Thurlby Parish Website.</p>
100.	To receive an update on the Cemetery to include grass cutting, maintenance and burial fees	
	100.1	Cllr Thomas said that the cemetery looked tidy now that the hedge had been cut the grass cut and the paths swept. He had seen notices placed on graves at Langtoft cemetery by the Parish Council and felt that we too should do the same. He showed details of the notice which advised relatives that additional topsoil would be added to a grave to compensate for shrinkage and grass seeded in the Spring. The Clerk was asked to prepare should a notice and that they should be put in place before Christmas as it felt that more people might visit the cemetery at that time of year.
